

Pittsfield Village Condominium Association

Bathroom Vent Fan Specifications

- Use rigid ducting with elbows or flexible, code-approved ducting.
- Fan must be vented through the gable end of the building only. (Not through the front or rear of the unit.)
- The vent hood with screening must be installed high on the wall above the snow line.
- Vent must be caulked and painted to match existing paint.
- All wiring must be done by a licensed electrician.
