

March 2023

LANDSCAPING NEWS

MULCH / PRE-EMERGENT forms will be mailed to you the week of March 6. Forms must be returned by the deadline **ONLY if** you are opting out of weed pre-emergent & mulch, or participating in the Garden Marker program.

Also, look for the **Garden Marker Program** registration (*optional*).

SEASIDE BLUE STICKS for 2023!

Please note: *if you opt for NO SPRAY, then you must use garden markers **and** weed your own garden.* **The crews will not maintain your garden beds if you opt out of spray.**

Each program is **optional** but has a deadline—so get your forms filled out and turned in right away!

Want Pittsfield crews to take care of the beds? - do nothing.

Spring reminders from Maintenance Staff:

Clean up after your dogs and throw out “doodoo” at home - not in playground areas, please!

If your window flower box is in need of repair, let us know now before planting season.

Check batteries in smoke detectors when you change your clocks on the 12th!

Call or email your request to office@pittsfieldvillage.com.

Thank you!

Sump Pumps

Approval from the Maintenance & Modifications Committee is required prior to installation of a sump pump.

Requirements

Installation must be performed by a contractor licensed to do the work. A proposal or contract from the contractor showing the following information must be provided with a Modification Request form providing the following information:

- ◆ Description of the work to be done.
- ◆ Statement that the contractor will be obtaining the required City of Ann Arbor permits and inspections.

Note: Termination of the system will be at the direction of the City. The co-owner will be responsible for any cost associated with that requirement. Examples of City of Ann Arbor approved termination options in the Village include, but are not limited to: rain gardens, connecting to yard drains that connect to the City storm sewer lines, adding a private storm sewer line.

Things to consider:

Most sump pumps require electricity to work. Should a storm that produces a lot of rain also cause an area power outage, an electric-powered sump pump would not work without a backup power supply. Battery backups are available that allow pumping to continue up to two days. Sump pumps that are powered by the City's pressurized water system are also available. Both of these options add cost to the project and/or to the cost of operation. Discuss these options with your contractor prior to entering into a contract.

There may be a requirement that the sump pump be on a separate electric circuit. If so, this could require an update to your electrical panel.

Pumps with cast iron cores last longer than ones with plastic cores.

Coloring Corner

Paws & Tails Pet Care

Right here in Pittsfield Village!

Have peace of mind while you're away with quality care and affordable rates for your furry family member!

I provide daily dog walking for people who have long, busy, work hours, new puppies who need potty breaks and socialization, or for those that want their dog to have a fun break in their day!

I also provide house visits for dogs, cats, and small animals for those gone on vacations and business trips.

Email to book your free meet and greet with me and to receive more information.
